Reasons for failed delivery of eGift cards

eGift Cards are delivered via email. If you have confirmed the recipient's email address but the eGift Cards have not been viewed within a reasonable period after the requested delivery date, the following is a list of the most common reasons why delivery may have failed:

1. Spam filter blocked email or routed it to a bulk/spam folder
2. Recipient's firewall blocked the email
3. Email inbox is over size limit
4. Invalid email address
5. If a spam filter is blocking Gift Card emails from getting to an inbox, the email options will need to be modified so that Gift Card emails are not considered spam.

If you need further assistance, please contact us on 01919087621. Please be ready to provide your order number.
